

Grass Seed Growth Competition Rubric

For the next 8 weeks, you need to grow and maintain grass seed in a 1 pint plastic container. The success of your project will be graded on the following mutually created scoring rubric. The idea here is that some plants from a horticultural perspective need care and maintenance.

- Materials:**
- * Five gram of grass seed
 - * One pint plastic berry container
 - * Potting soil

Criteria	1	2	3	4	Your Score
Height	Little height, excessive height...	Less than 1 inch and or more than 4	Less than 1.5 inch and or more than 3.5	Perfect height - 2.5 inches.	
Color	Brown, grey or white	Pale green with tinges of yellow	Pale green	Deep green with no discoloration	
Lawn Mowing & Trimming	No mowing or trimming	Unkempt ,loose blades of grass	Rough cut lawn with loose clippings scattered throughout	Perfectly cut & trim lawn, no loose blades of grass. No clippings	
Watering	Dry or water-logged soil, wilted or dead grass.	Wilted lawn	Partially wilted lawn	Moist soil, upright blades of grass, perfect lawn	
Health	Dead plant	Dying or gives the appearance of abandonment & lack of TLC	Plant showing some signs of stress	Lawn is in perfect health!
