

The Daily Carbon Compound

As part of our investigation of Biochemistry, you need to make a mini-newspaper on organic compounds which will be graded as a quarter project. The mini-newspaper should be four pages in length with one page each being devoted to: lipids, proteins, carbohydrates and nucleic acids.

You are free to design the newspaper as you please, but may want to consider one or more of the following things:

- * Create your own newspaper title & sub-headings.
- * Include pictures, drawings, graphs and illustrations where possible.
- * Descriptive or investigative articles.
- * Cartoons
- * A Carbon sports sections
- * Commentaries on 'organic molecule issues'.
- * Cut and paste photos and pictures from magazines.
- * Use computers and desktop publishing software where possible.
- * A fictional story.
- * Historic accounts or the latest information on dietary guidelines & health.

Assessment Rubric

	Needs a lot of work				Outstanding
Creativity	1 _____	2 _____	3 _____	4 _____	5 _____
Originality	1 _____	2 _____	3 _____	4 _____	5 _____
Humor	1 _____	2 _____	3 _____	4 _____	5 _____
Format	1 _____	2 _____	3 _____	4 _____	5 _____
Scientific Content & Accuracy	2 _____	6 _____	15 _____	25 _____	30 _____
